MERU HOSPITAL PROFILE

WELCOME TO MERU DISTRICT HOSPITAL TANZANIA

Meru District Hospital is one of the district Hospitals in Tanzania committed to serve the community through provision of quality preventive, Curative, Rehabilitative and Palliative health service to individuals by using available limited resources.

It is the only government owned hospital in the administrative area (Meru District Council), situated approximately 15 kilometers from Arusha city council in a small town called Tengeru. The council has a total population of 268,144 according to the census o 2012.

This hospital was officially upgraded from a health center to a District Hospital in 1986 and currently it has a capacity of 110 inpatient beds and attending an average of 200 outpatient per day.

Meru District Hospital has established a good relationship with the local and foreign NGO's Institutes, volunteers and Community at large who support the hospital in different activities including technical and financial support.

VISION

Improved Health status of the Meru District residents through provision of quality services emphasizing on vulnerable groups

MISSION

To provide quality Preventive, Curative, Rehabilitative and Palliative health services to Individuals through departmental collaboration using available resources
